

# Kilt Hire Division

## Measurement checklist

Name – Individual: \_\_\_\_\_ Hire – date:        /        /20

Hire – group name: \_\_\_\_\_

If you know your jacket size (i.e. 42R) please note that down under the chest heading.

**Height** – Usual height in bare feet (important double check for correct kilt length) .....

**Neck – Firm** (we will make allowance for comfort) .....

**Chest** – Under the arms, arms by the sides (do not inflate chest).....

**Arm** – (top of arm at shoulder to wrist).....

**KILT Waist – Firm** (at belly button height, **do not** supply trouser waist measurement).....

**Seat – Loose** (around backside at widest point).....

**Drop** – (from belly button height to mid knee).....

**Shoe** – UK size if known. If not sure, measure from the heel to the tip of your longest toe; flatten your foot by shifting your weight forward. ....

**NB:** Have someone measure you; self-measuring rarely gives an accurate result.
